

Aniket Mehare

Product Leader & AI-Native Builder · ~10 Years Experience

Barsha Heights, Dubai mehareac@gmail.com +971-52 761 4518 LinkedIn Website GitHub

PROFILE SUMMARY

Product Leader & AI-Native Builder with ~10 years of experience at the intersection of marketplace scaling, supply chain optimisation, and rapid software delivery. Expert at transforming complex business intent into functional production software within 2–4 week cycles by leveraging an AI-augmented stack including Python, n8n, and Bolt.new. Proven track record of driving massive scale — technically enabled AED 220M in marketplace GMV across 350+ sellers in UAE & KSA, and launched JioMart’s FMCG category building a revenue run rate of ₹1 Cr within 12 months of launch. A “ship-first” strategist who bridges legacy enterprise data with modern UI prototypes and builds AI-driven automation for global platforms.

EXPERIENCE

Landmark Group Dubai, UAE
AI Builder & Product Manager Aug 2025 – Present

- Conceptualised, developed & delivered a full-stack vehicle asset management system for a 600-truck fleet in a 6-week solo sprint, without assistance from the technology team.
- Conceptualised and engineered a high-fidelity Oracle HCM UI “North Star” prototype to modernise the legacy Oracle Redwood experience, focusing on accessibility and UX.
- Built and shipped **Content Ginie** — a platform that compressed e-commerce shoot-to-live lead times from 12 to 7 days for major brands via automated image generation, translation, and content validation.
- Built a mini WMS application in 3 weeks for a cloth recycling facility, providing compliance and audit trails required to secure a high-value Dubai Customs contract.
- Shipped a Mega DC safety portal automating SOPs and tracking via WhatsApp/Telegram alerts to ensure 100% facility compliance.

Product Manager — Marketplace Dec 2023 – Present

- Product-led the expansion of the GCC marketplace to **AED 220M GMV**, defining core logic and scaling Dropship/Easy Ship models for Homecentre, Centrepont, Babyshop, and Lifestyle.
- Defined end-to-end product requirements for Easy Ship logistics, orchestrating tech for first-mile consolidation and automated pickup SLA management.
- Owned the product transformation of the Viniculum engine into a bespoke seller portal, managing API integrations for enterprise partners like Apparel Group.
- Designed and productised an automated payment settlement engine, aligning finance and tech to ensure seamless payouts across multi-concept marketplace models.

Product Manager — Mega DC June 2024 – Present

- Streamlined the carton-to-tote decanting process by eliminating 8 redundant steps, reducing workflow from 14 steps to 6.
- Leveraged technical insights into the proprietary DEMATIC system to optimise travel paths, reducing pick walks by **14%**.
- Engineered a solution to enable manual storage and retrieval of multi-SKU items within a high-density automated warehouse environment.
- Scaled operations by enabling and integrating the consignment model for e-commerce fulfilment from the Mega DC.

Reliance Retail — JioMart (Marketplace) India

Product Management — Marketplace Supply Chain Jan 2023 – Dec 2023

- Led slotted delivery for SmartBazaar across 3,100+ grocery stores, enabling customer choice in delivery time slots.
- Unlocked **₹20 Cr revenue** by spearheading seller self-ship capability for heavy & bulky products in marketplace.
- Launched doorstep pickup quality checks, reducing seller claims by 18% for item mismatch in returns.

Senior Program Manager — E-commerce Growth

July 2021 – Jan 2023

Team: 3 Managers · 15 Assistant Managers · 1 Business Analyst

- ▶ Achieved **188% of GMV**, 210% of seller, and 270% of assortment targets in the first 3 quarters of 3P launch.
- ▶ Improved share of business via fulfilment centres from 2% to 17% by programme-managing a category team of 95.
- ▶ Responsible for acquisition, growth, sustainability, and business value generation of 215 marquee sellers.
- ▶ Programme-managed marquee events on the marketplace to ensure inputs & execution aligned with AOP.
